

**University of
Northampton**

**Senior Lecturer in
Physiotherapy
Job Description**

Job Title: Senior Lecturer in Physiotherapy

Grade: 8

Responsible to: Deputy/Head of School - Health

Overall Purpose

To provide a full, proactive and flexible contribution to the Faculty and University through:

- Delivery of an outstanding student learning experience in line with the University's mission and strategic plan, and sector expectations of best practice
- Commitment to scholarship, for the development and implementation of innovative and effective teaching and learning methods
- A contribution to financially sustainable research, enterprise and strategic collaborative activities
- A commitment to the facilitation of positive social impact

Principal Duties and Responsibilities

Student Learning Experience

- Provide an outstanding research-informed, personalised student learning experience; demonstrating creativity and innovation in the effective development, planning, delivery and assessment of a wide variety of learning opportunities to enable high quality student outcomes
- Deliver excellence in active blended learning – integrating face-to-face (primarily) and on-line teaching and learning, for example seminars, workshops, tutorials, dissertation/project supervision, research degree supervision (where relevant); as appropriate for different learners
- Demonstrate thorough subject knowledge including significant and recent developments, as well as with professional practice where applicable
- Demonstrate excellence in the development and use of the Virtual Learning Environment (VLE) to enhance the learning experience in both face to face and off-campus delivery
- Deliver excellence in assessment, including developing a range of assessment items that demonstrates innovation and sector best practice, and undertaking assessment processes in line with University policy and practice
- Participate in emerging academic, and professional and research practices
- Provide high quality management of modules and/or small/partial programmes in line with University policy and practice, taking a proactive approach to the implementation of established quality assurance processes, contributing to the design and implementation of quality enhancement initiatives, and undertaking all necessary associated administration
- Communicate and collaborate effectively with colleagues in the development and delivery of programmes and modules
- Undertake personal tutorial support and provide a key academic point of contact for students
- Provide academic leadership for the development and delivery of programmes in line with the

- requirements of the University and external agencies, such as QAA, PSRB
- Provide high quality management of large and/or non-standard modules and programmes, including leadership of the programme level quality review; proactively implementing established quality assurance processes and leading the design and implementation of quality enhancement initiatives including the development of new modules and programmes delivered in single or multiple locations
 - Ensure effective communication across a team of academics to achieve high quality student outcomes
 - In liaison with the Head of Subject, undertake effective communication with external examiners and other external colleagues with respect to quality and standards

Research and Enterprise

- Develop and/or maintain a personal record of published research and scholarly outputs, for example pedagogic research or case studies, at national and preferably international level, and make a proactive contribution to securing external funding to support this activity
- Contribute to securing and delivering financially sustainable enterprise activities, examples of which may include: applied research, consultancy, corporate training/education, knowledge exchange
- Actively contribute to the Faculty's research community through, for example: participation in the Faculty's research groups and/or research centres, seeking opportunities for collaborative scholarship, providing support for less experienced researchers, delivering workshops on relevant research based programmes (for example PhD, MPhil, DBA), membership of Doctoral supervision teams
- Take a leadership role in securing and delivering financially sustainable research and/or enterprise activities. Examples may include: academic research, applied research, consultancy, corporate training/education, knowledge exchange, and/or other forms of income generation
- This can involve managing budgets and leading research teams
- Develop and maintain productive external relationships for the advancement of teaching excellence, examples of which may include: other HEIs, employers, professional bodies, corporate clients, and international partners

To be considered for a Teaching and Research contract, the university will require evidence of one 2* (internationally recognised) research output, with the potential to produce a minimum of two at 2* over three years once in post.

Generic Duties and Responsibilities

- Make a positive and proactive contribution to the general life of the Subject Group, Faculty and wider University, ensuring that effort and resources are utilised effectively and efficiently in pursuit of the University strategic plan
- Contribute to the development and implementation of Faculty promotional and student

recruitment activities. Examples include but are not limited to: attendance at Open Days, development of promotional materials, conducting applicant interviews, visits to/from prospective clients and employers international partners and recruitment fairs, participation in Welcome Week activities

- Engage in staff development activities relating to teaching, learning and assessment
- Be proactive in pursuing Changemaker and other relevant activities which will deliver a social impact
- Facilitate and continue to develop own Personal Development Planning and engage in the University's Personal Development Review (PDR) process; be pro-active in taking responsibility for own professional development and training, for example, by completing mandatory training to deadlines, attending internal and external training opportunities relevant to stage of career and subject discipline
- Manage own time through electronic diary systems, and ensure appropriate communication is maintained at all times with students and colleagues
- Work flexibly and undertake other responsibilities and tasks appropriate to level, as reasonably requested
- Be responsible and accountable for ensuring all employment legislative requirements are adhered to, examples include equality and diversity, and health and safety issues
- Engagement with relevant committees, working groups, forums and assessment boards.
- Have a demonstrable understanding of University policies and procedures
- Provide effective mentoring, induction and other support for new staff and/or Associate Lecturers when required

The job description may be altered at any time in the future, in line with the level of the post, to meet changing institutional requirements and the growing dynamic environment of higher education. Any changes will be made in full consultation with the post holder.
